In re: Request of Azar's Northcrest, Inc.
for Vacation of Public Sewer

Gentlemen:

This letter is a request on behalf of Azar's Northcrest, Inc. for the vacation of a public sewer now situated in an easement described as follows:

The Southeast four (4) feet of Lots Numbered 2, 3 and 4, Rudisill Heights Addition to the City of Fort Wayne, lying South of the Southwest line of Indiana State Highway No. 324; and the Northwest four (4) feet of Lot Numbered 8 and the Northwest four (4) feet of the Southwest twenty-five (25) feet of Lot Numbered 7 Rudisill Heights Addition to the City of Fort Wayne, according to Plat Record 10, page 78, as recorded in the office of the Recorder of Allen County, Indiana.

In addition to the petition for the vacation of the above referred to public sewer; above captioned petitioner also requests permission to re-locate the manhole which is currently located within the boundaries of the above set out legal description to a point immediately southwest of the southwest corner of Lot Numbered 8, Rudisill Heights Addition to the City of Fort Wayne,

A plat development for above captioned petitioner has previously been discussed with the Board and with Mr. Howard Biggs of the City Engineers Department and a copy of said plat development has been forwarded to Mr. Lou Hallet of the Board by Mr. Biggs of the City Engineers Office. Said request by above captioned petitioner is made for the purpose of facilitating the erection of a commercial structure in and above the above referred to legal description.

Petitioner has been appraised of the fact that the maintenance of said sewer will be his sole obligation and that said manhole must be removed at petitioner's expense and relocated at petitioner's expense under the supervision of the City Engineer's Office.

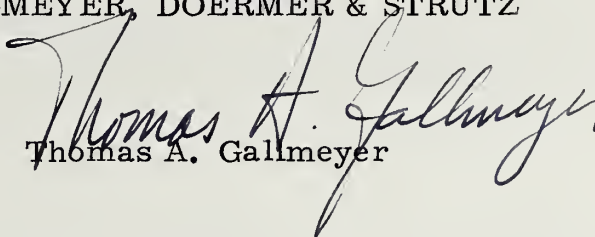

In discussing this matter with the City Engineer, petitioner has been informed that its property is located at the end of said public sewer and that the surrounding property north and east of the Circumurban Highway and east of the Lea Road is serviced by other sewers. That the City Engineer's office does not anticipate that said sewer will ever be extended from its present point of termination. That for the foregoing reasons no hardship will be caused by the vacation of the aforementioned public sewer and above captioned petitioner will be able to develop its property in conformance to zoning standards.

The undersigned would appreciate being informed of the Board's disposition of this request.

Respectfully submitted,

Providing that the Petitioner removes a portion of the existing sewer and constructs a new manhole at their expense, and providing the Petitioner agrees to pay for the services of the Engineer and/or Inspector required from the City Sewer Engineering Department, there is no objection to the adoption of the attached Declaratory Resolution.

All of the affected property owners have signed the attached waiver, so it will not be necessary to advertise or hold a public hearing.

A plan and property ownership list are also attached.

Re: Proposed Azar's California Road Drive-In

Enclosed is a plot plan showing a proposed Azar's Drive-In, which was submitted to us along with a request to vacate a portion of the sewer and easement located thereon by Mr. Phil Gutman.

They wish to vacate that portion of the Easement to be occupied by their building and move the existing Manhole southwest so that it will be located out from under their building. We have shown, in blue, the proposed location of the manhole, and in green, the existing location of the manhole.

Since these people have purchased all the property that was assessed and will be served by this sewer we see no objection to granting their request. We might call your attention, however, to the fact that this sewer was just recently completed under Resolution No. 643. Certainly any cost involved should be borne by Azar's Restaurant.
